TEAM EFFICIENCY

Founding member and Head of Customer Success at QuickReply.ai, having scaled the CS function from \$300K to \$2.5M+ ARR while sustaining an elite 120% average NRR (peaking at 220%). I drive retention and expansion by seamlessly navigating cross-functional engineering sprints, founder-level business strategy, and enterprise sales execution. Adept at transforming passive accounts into deeply integrated partnerships, building in-house support automation that boosts team efficiency by +40%, and unlocking \$50,000+ MRR pipelines while keeping gross revenue churn under 2%.

EXPERIENCE (4.9 YEARS)

Mar 2023 to Present

3.2 yrs

QuickReply.ai

Head of Customer Success

- Personally managed **30+ enterprise accounts** representing **\$400K+ ARR** across diverse verticals — including Gujarat Titans IPL, Renée Cosmetics, IDP India, and The Art of Living
- Led a CS team overseeing a mixed portfolio of **900+ clients** worth **\$2.1M+ ARR**, setting KPIs and weekly performance reviews
- Sustained company-wide NRR averaging **120%**, peaking at **220%** in high-growth months through proactive value realization and aggressive upselling
- Designed an agile pilot integration pipeline for custom features and integrations, unlocking a new revenue pipeline exceeding **\$50,000+ MRR**
- Maintained gross revenue churn at a world-class **under 2%** by architecting deeply integrated product use cases that created strong platform stickiness
- Streamlined CS operations with advanced automation tools, increasing team workflow and ticket-handling efficiency by **+40%**
- Led collaborative product initiatives with engineering teams, ensuring major customer-led features were delivered **100% on time** and within budget

Jun 2022 to Mar 2023

0.9 yrs

QuickReply.ai

Technical Business Analyst

- Implemented advanced analytics frameworks for tracking core delivery metrics, reducing service delivery latency by **25%** and significantly increasing management visibility
- Optimized user platform experience through rapid testing and iteration sprints, contributing to a **15% lift** in user adoption of newly launched features
- Spearheaded technical training bootcamps and created comprehensive documentation to upskill **12+ team members** on WhatsApp API configurations and modern MarTech integrations

Jun 2021 to Jun 2022

1.0 yrs

QuickReply.ai

Business Analyst

- Formed foundational relationships with early accounts during a high-growth phase, ensuring **100%** project alignment across cross-functional timelines
- Analyzed platform usage and performance data to uncover operational friction points, driving a **20% decrease** in internal reporting errors and targeted product updates

INNOVATION PROJECTS

In-house CRM (Management Visibility)

Custom workflows mapping live user tracking, health indexing, and happiness trends across 930+ accounts; risk-trigger automations for forward-looking churn forecasting and CSM re-assignment

In-house Support Automation (CSAT)

Automatic CSM assignment based on client profile complexity, optimal SLA management for timeline compliance, and revamped self-serve documentation to lower inbound support volumes

In-house Automation Management

At-risk customer recovery roadmaps, automated follow-up scheduling, and tier-based growth/retention playbooks to standardize workflows across high-value enterprise accounts

In-house Onboarding Automation

Effortless portfolio development for newly signed enterprises and accelerated SLA monitoring to dramatically shorten the standard client setup lifecycle and time-to-value
